

MOHAMED ASHIK ILAHI.A

Shopify Developer | Ecommerce Web Developer
Chennai, India | 06379523454 | ashiqilaahi02@gmail.com

PROFESSIONAL SUMMARY

Web Developer with 3+ years of hands-on experience in Shopify, WordPress, HTML, CSS, Liquid, JavaScript, PHP, ecommerce, integrations, and website customization. Skilled at using AI tools to rapidly learn new technologies, break down unfamiliar technical requirements, and implement or integrate working solutions into live production websites. Experienced building custom Shopify templates and sections, WordPress websites and plugins, Chrome extensions, ecommerce loyalty and subscription functionality, payment integration, APIs, and business automation using Google Apps Script. Strong self-directed problem-solving ability, with practical experience researching documentation and independently implementing new technologies — accelerated by an AI-first approach to development. Practical experience with Amazon Seller Central and marketplace operations.

CORE SKILLS

- AI-Augmented Development: ChatGPT, Claude, Google AI Studio, NotebookLM — rapid prototyping, code generation & debugging, self-directed upskilling, requirement-to-implementation problem solving
- Shopify: Liquid, Theme 2.0 Customization, Sections & Blocks, Shopify CLI, Admin API, Metafields, App Integrations
- Frontend: HTML5, CSS3, JavaScript, AJAX / JSON, Responsive Design
- Ecommerce: Amazon Seller Central, Product & Order Workflows, Email Marketing and Klaviyo
- WordPress: PHP, Custom Plugin Development, Elementor
- Custom Solutions: Google Apps Script for Automation, Custom Chrome Extension Development
- Analytics & Tracking: Google Tag Manager, GA4, Meta Pixel, Microsoft Clarity, Google Merchant Center, UTM Tracking
- Infrastructure: DNS / Hosting / SSL, Deployment & Environment Testing, Technical Troubleshooting

PROFESSIONAL EXPERIENCE

Web Developer — Shopify & WordPress Developer

Aug 2023 – Present

Linkcore Trading Pvt Ltd | Chennai, India

- Develop and maintain Shopify and WordPress websites, translating business requirements into responsive, user-friendly web experiences using Liquid, HTML, CSS, PHP and JavaScript.
- Use AI tools (ChatGPT, Claude, Google AI Studio, NotebookLM) as a core part of the development workflow — researching unfamiliar APIs, generating and debugging code, and accelerating implementation of new features without formal training.
- Customize Shopify 2.0 storefronts, including themes, homepage sections, navigation/mega menus, product and collection pages, custom templates, landing pages and reusable frontend components.
- Implement ecommerce functionality such as loyalty and store credit, subscriptions, product bundles, discounts, customer-facing forms, market-specific behavior and third-party app integrations.
- Build custom business pages and experiences including Wellness Hub, Rewards/Loyalty and custom blog/article templates.
- Work with Shopify APIs, customer/store-credit requirements, app integrations, analytics and tracking tools, and troubleshoot issues across storefront, cart, checkout-related flows and localization.
- Develop additional technical solutions including a custom WordPress plugin, a Chrome extension, and Google Apps Script/JavaScript automation for inventory sheet, employee birthday and work-anniversary emails — built by self-learning through AI-assisted development.
- Maintained and updated daily inventory records, including product pricing and stock levels, while managing website content updates to ensure accurate and timely ecommerce operations.
- Support ecommerce operations and marketplace activities, including creating/managing an Amazon store and handling product, promotion, order and customer-journey requirements.
- Investigate website performance, hosting, DNS, SSL, email delivery, uptime and configuration issues.
- Use Google Tag Manager, GA4, Meta Pixel, Microsoft Clarity, Google Merchant Center and UTM tracking to support measurement, troubleshooting and ecommerce marketing requirements.
- Independently research documentation, prompt AI tools effectively, test solutions and learn new technologies to solve unfamiliar technical requirements with minimal supervision.

SELECTED PROJECTS

Shopify Ecommerce Development — *Shopify, Liquid, JavaScript, HTML, CSS, AI-assisted development*

Extensive storefront customization covering homepage, navigation, product pages, custom sections, market-specific behavior, loyalty, subscriptions, bundles, third-party apps and custom business pages. Used ChatGPT and Claude throughout to research Shopify APIs, generate and debug Liquid/JS code, and speed up delivery. Successfully created and launched e-commerce websites for supplement and beauty brands, delivering tailored user experiences and optimized performance.

WordPress Plugin & Website Development — *WordPress, PHP, JavaScript, Elementor*

Developed and customized WordPress websites and built a custom plugin to extend functionality beyond standard CMS features, using AI tools to self-teach plugin architecture and PHP patterns.

Chrome Extension — *JavaScript, Chrome Extension APIs*

Built a custom browser extension for a specific ecom team workflow requirement, using AI-assisted development to learn Chrome Extension APIs and ship a working tool with no prior extension experience.

Business Automation — *Google Apps Script, JavaScript, Google Workspace*

Developed and implemented automated birthday and work-anniversary email workflows, along with inventory and customer data management systems, to streamline e-commerce team operations and eliminate repetitive manual tasks.

Amazon Ecommerce Store — *Amazon Marketplace, Ecommerce Operations*

Created and managed an Amazon store, developing practical knowledge of marketplace operations, products, promotions and customer-facing ecommerce workflows.

EDUCATION

Bachelor of Computer Applications (BCA) — 75.18%

Sadakathullah Appa College, Palayamkottai, Tirunelveli

2020 – 2023
